Experience

Cognizant Technology Solutions

Engineer Trainee (2024 - 2025), **Senior System Executive** (2025)

Handled diverse client support tickets related to application access, role assignments, and user account management within client domains. Performed account provisioning, role-based access control, and user enable/disable operations using SQL and proprietary internal tools. Ensured timely resolution of access-related issues while maintaining compliance with client-specific protocols and security standards.

Projects

2025

YelpCamp

Developed a full-stack web app using Node.js, Express, MongoDB, and EJS. Implemented user authentication, robust Joi validation, responsive design, and deployed securely on Render with custom CSP configuration and error handling.

URL: **https://yelpcamp-ehs8.onrender.com**

2024

Calendar component

Created a standalone calendar component using React with dynamic date rendering, smooth month navigation, and responsive design. Focused on clean UI, reusable structure, and efficient state management for future integration.

URL: **https://golden-presto.github.io/calendar/**

2023

Virtual Banking Platform – *Final Year Project*

Built a secure PHP-based banking app with real-time transactions, authentication, and SQL integration.

Skills

Technical skills

- HTML, CSS
- JavaScript
- ReactJS, NodeJS, ExpressJS
- MySQL, MongoDB
- PHP
- Java

Soft skills

- Time Management
- Problem-solving
- Decision Making
- Adaptability

Language

- English
- Bengali
- Hindi
